

# Addressing the Pain Points of Manually Processing Financial Documents

*A Customizable AI-OCR Platform  
Document Processing Solution for  
Accounts Payable, Accounts  
Receivable and Finance Accounting  
Departments*

Introducing the **vDigiDocr** AI-OCR Platform Developed by vInnovate Technologies

# Background to the Solution

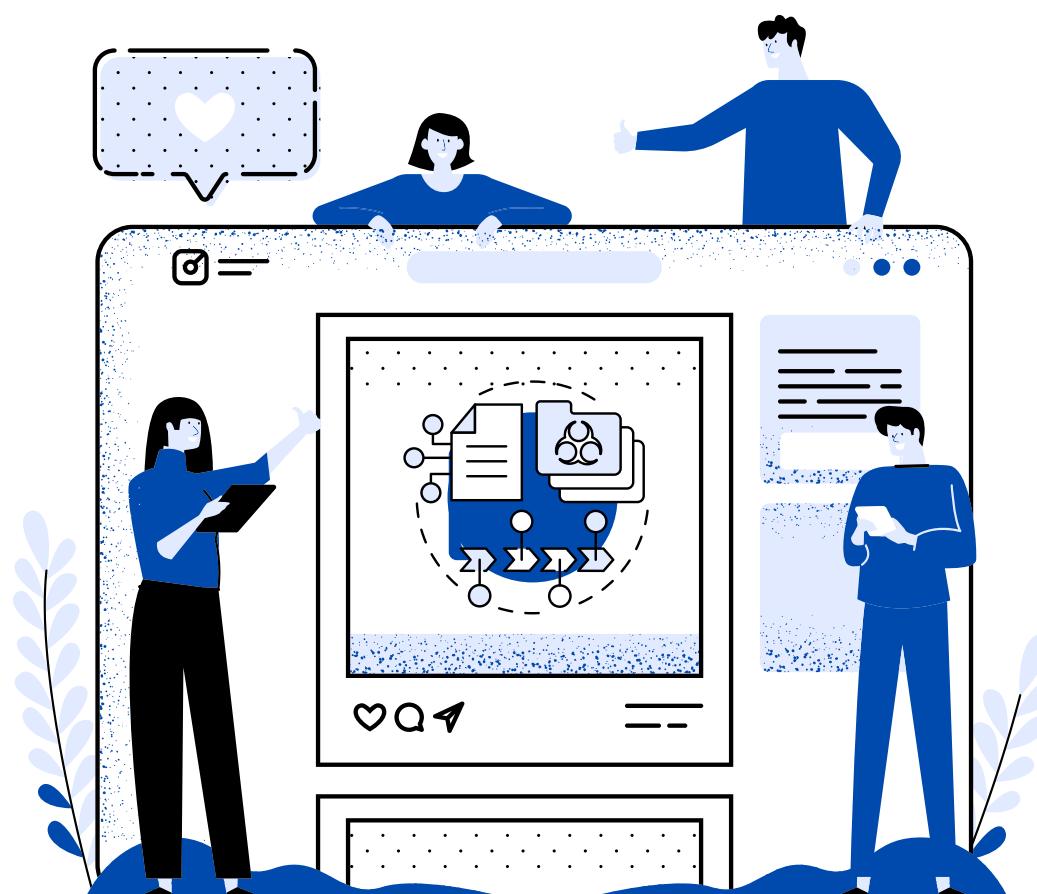

Research indicates that; *"Businesses lose an average of 20% of their revenue due to inefficient financial document processing.*

*The overwhelming volume of paper invoices, purchase orders, receipt notes, bank statements, etc. can lead to increased processing times, errors, and ultimately, reduced cash flow.*

*Our AI powered Document Processing Platform, vDigiDocr, is designed to streamline this process, addressing these pain points effectively."*

# The **Pain Points** of Manual Processing

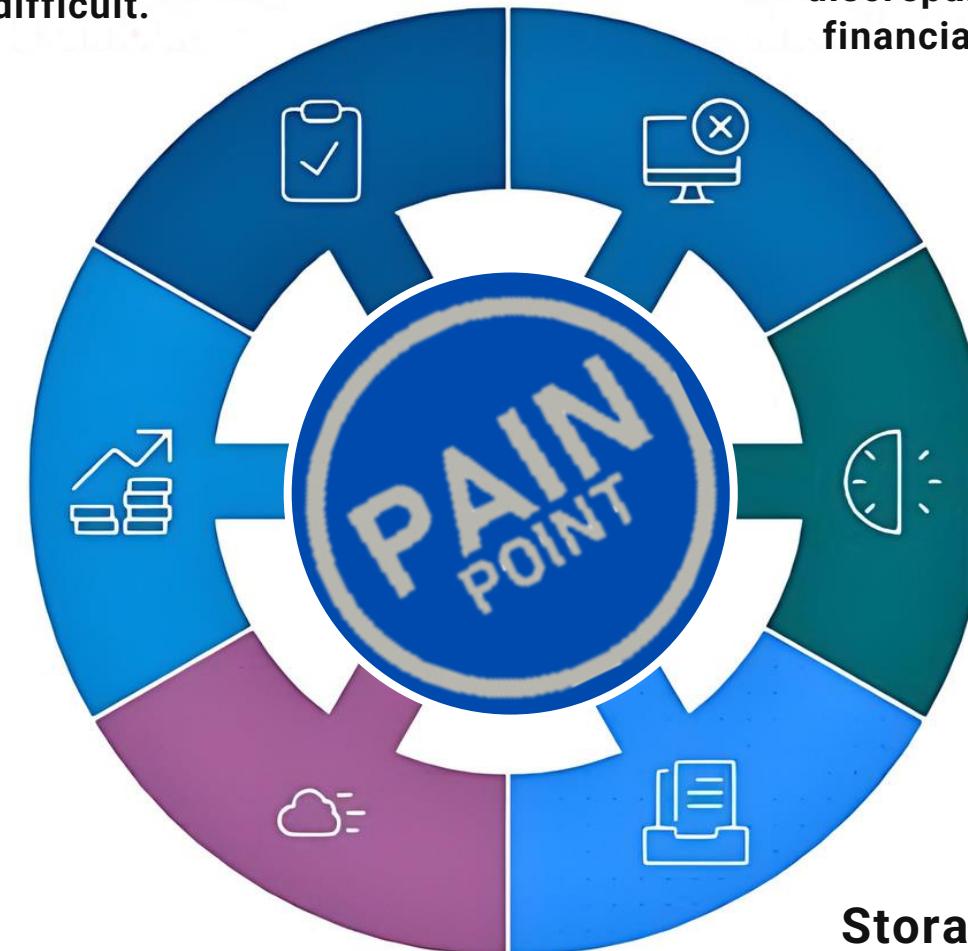

**High Costs**  
Additional labor and resources reduce overall profitability.

**Lack of Visibility**  
Difficulty in tracking invoice status leads to confusion.

## Compliance Challenges

Maintaining compliance and accurate reporting is difficult.

## Data Entry Errors

Errors in data entry lead to discrepancies and financial losses.

## Processing Delays

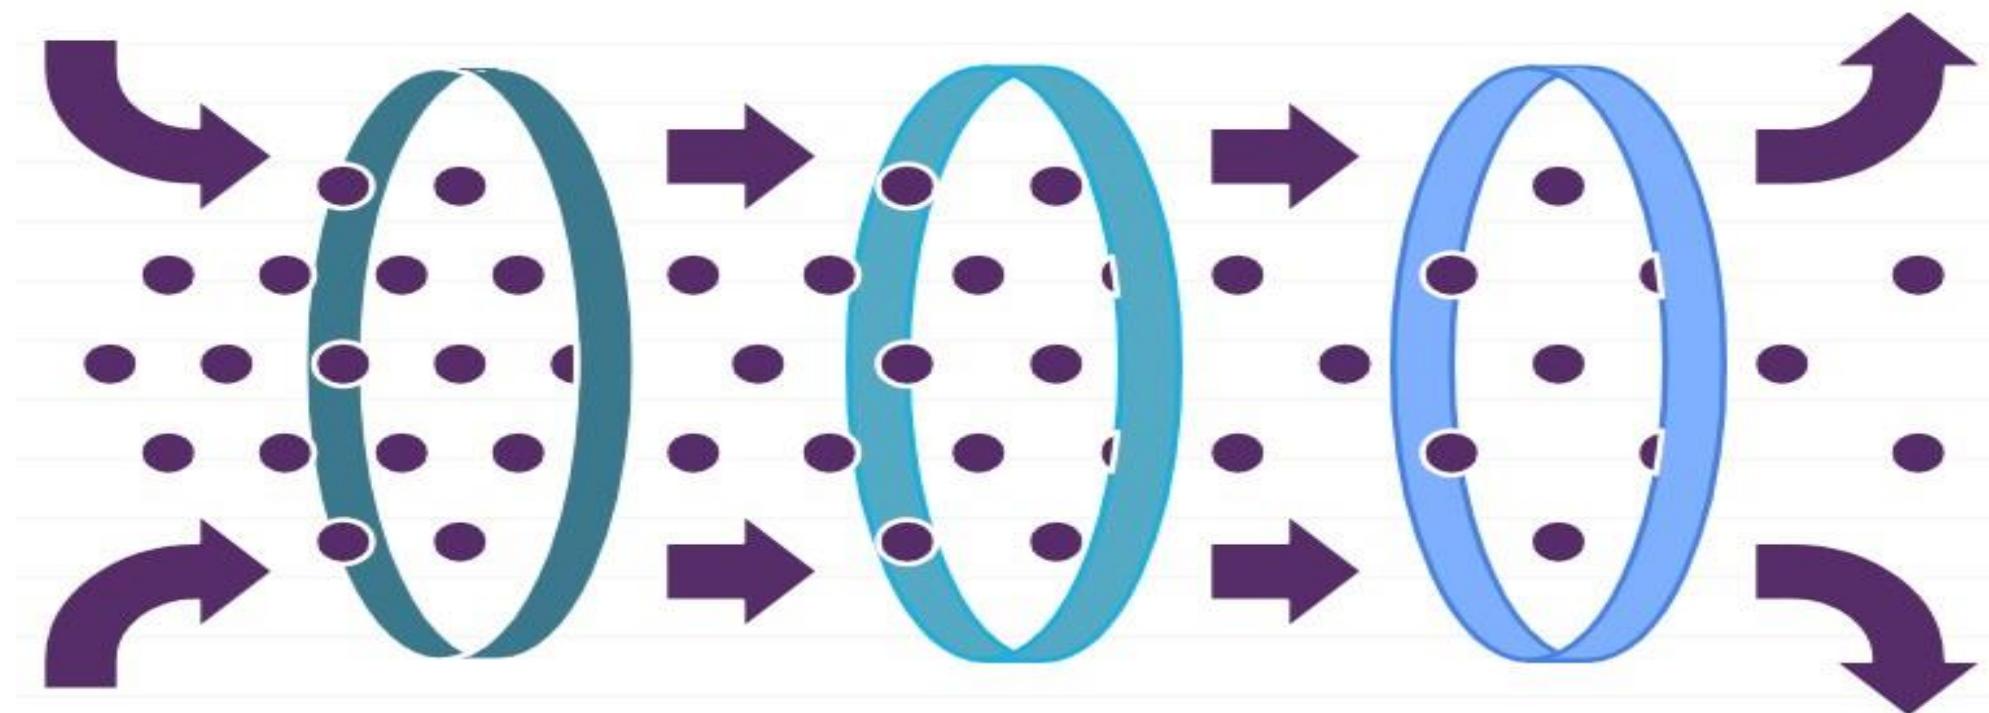

Slow operations cause delays in payment cycles and supplier relationships.

## Storage Issues

Cumbersome storage makes document retrieval time-consuming.

# The **Pain Relief** offered by *vDigiDocr*

## Avoiding Manual Data Entry Errors:

### **Document Capture**

Automatic  
Identification  
of key data  
fields in  
Finance  
Documents

### **Data Extraction**

Extraction of  
data for  
storage,  
reporting  
and transfer  
to ERP  
System

### **Error Reduction**

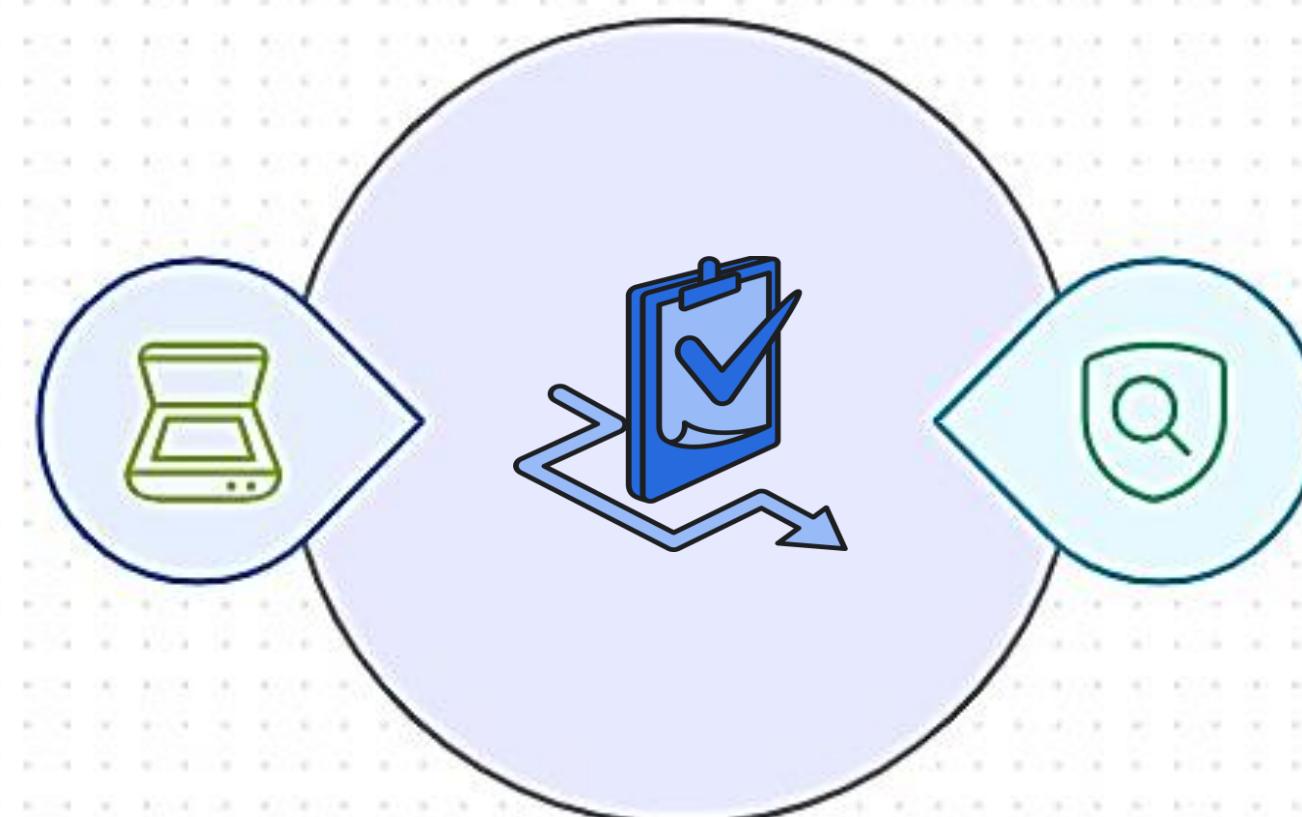

Thus  
avoiding  
manual  
entry  
mistakes

# The **Pain Relief** offered by *vDigiDocr*

## Avoiding Processing Delays:

### Document Scanning

Automating the scanning process to save time

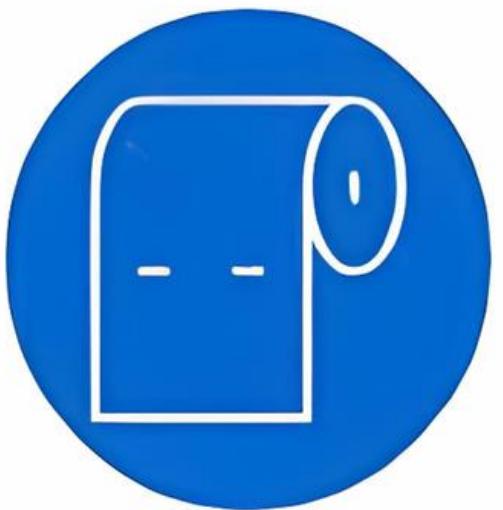

### Data Extraction

AI-OCR powered automatic data extraction and quick & accurate integration of relevant data

# The **Pain Relief** offered by **vDigiDocr**

## Avoiding Storage Problems:

Paper vs. Digital

**Paper**

Causes clutter and  
complicates audits

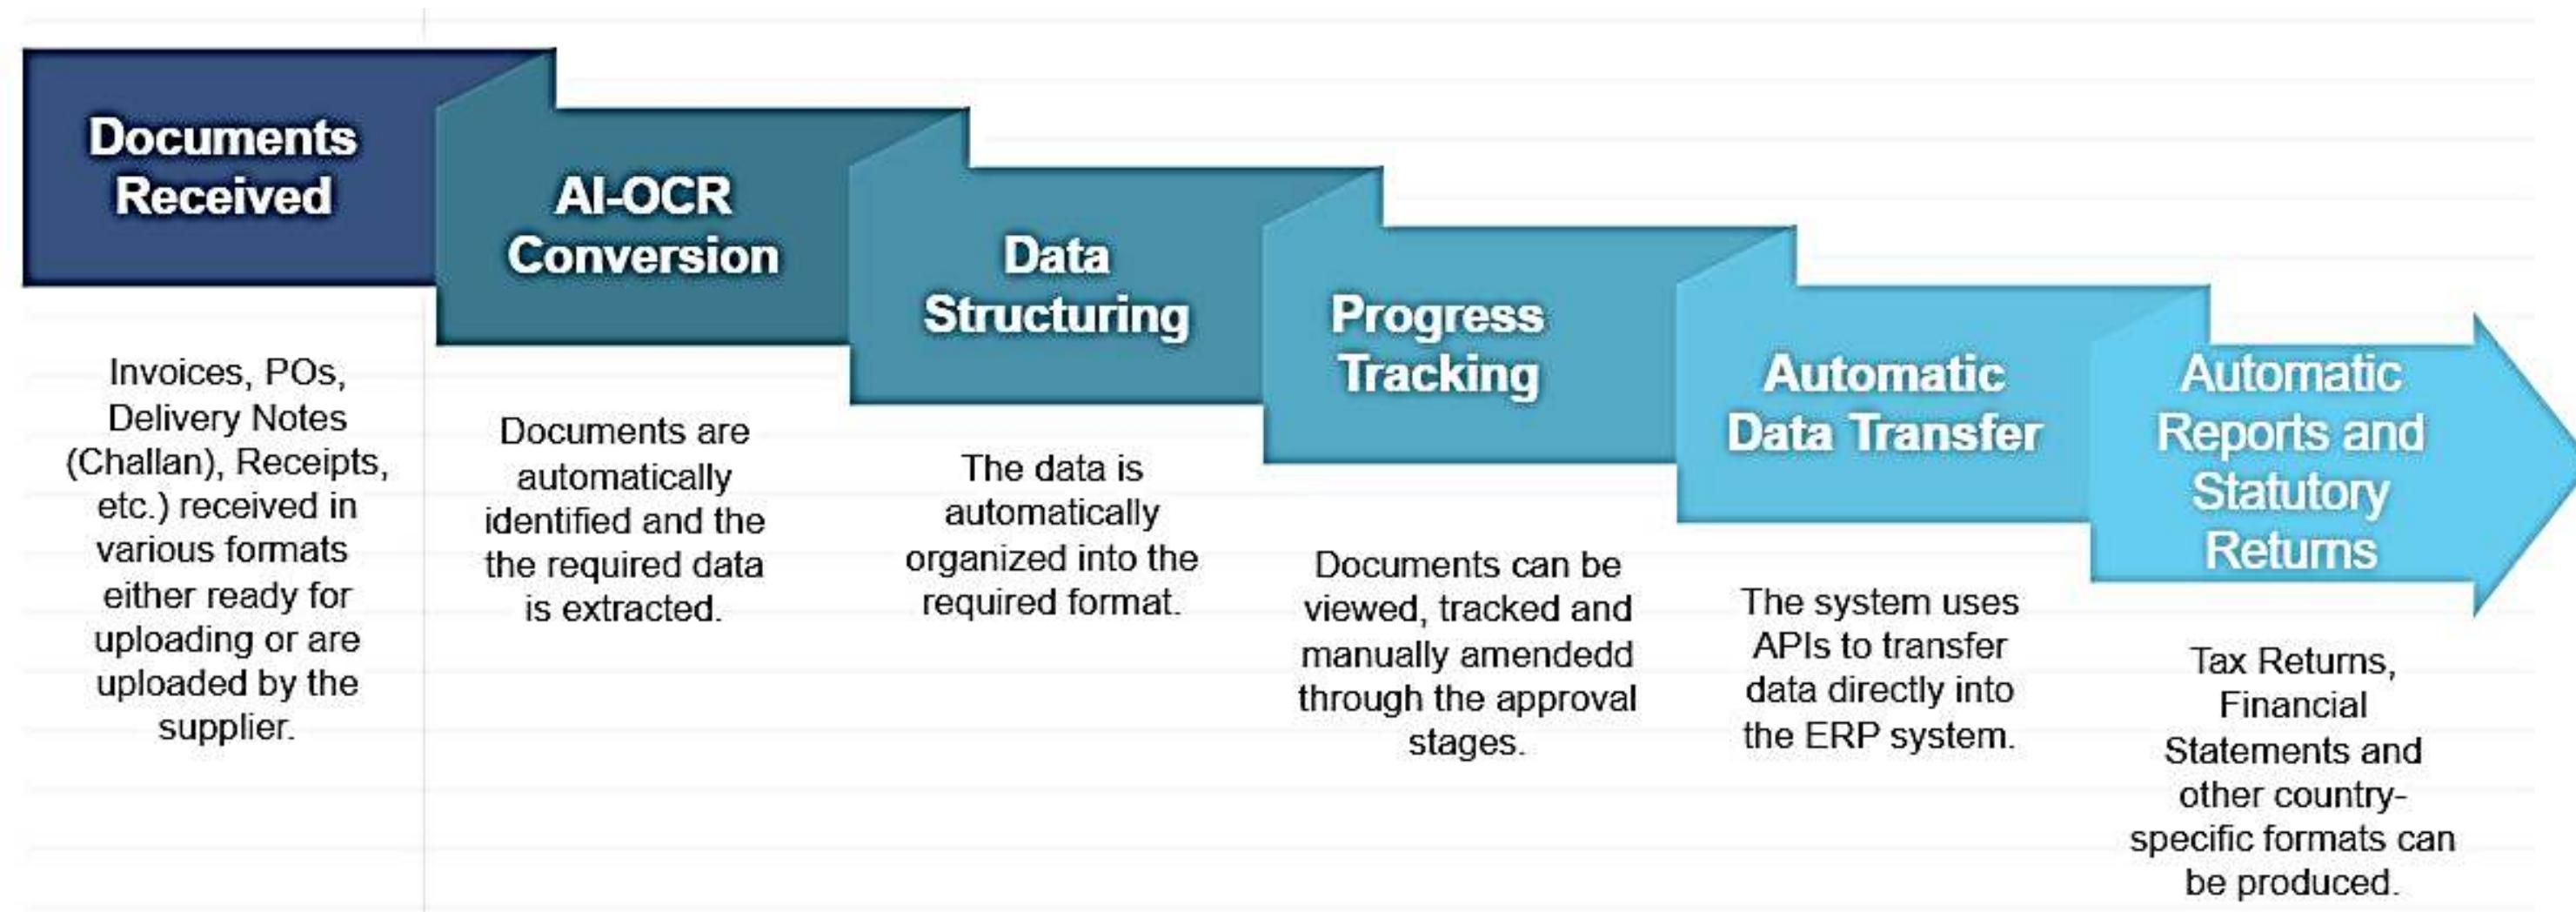

**Digital**

Saves space and enhances  
retrieval

# The Pain Relief offered by vDigiDocr

## Avoiding Accessibility Issues:

# The **Pain Relief** offered by *vDigiDocr*

## Avoiding Non-Compliance:

Automatic  
Digitization of  
Accounting  
Documents

Automated Data  
Extraction from  
wide range of  
document types  
and formats

Easier Access for  
Audits

Secure and Efficient,  
Retrievable Storage

Enhanced  
Financial  
Reporting

Reduced  
Compliance Risks

# The **Pain Relief** offered by *vDigiDocr*

## Regulatory Compliance

Our solutions are meticulously designed to align with:

### Laws & Regulations

Adherence to legal frameworks including GDPR, CCPA, HIPAA, and PCI DSS.

### Compliance Requirements

Our team collaborates with industry experts to embed essential measures, allowing you to concentrate on growth.

### Best Practices

We implement industry best practices to ensure our solutions are secure, reliable, and scalable.

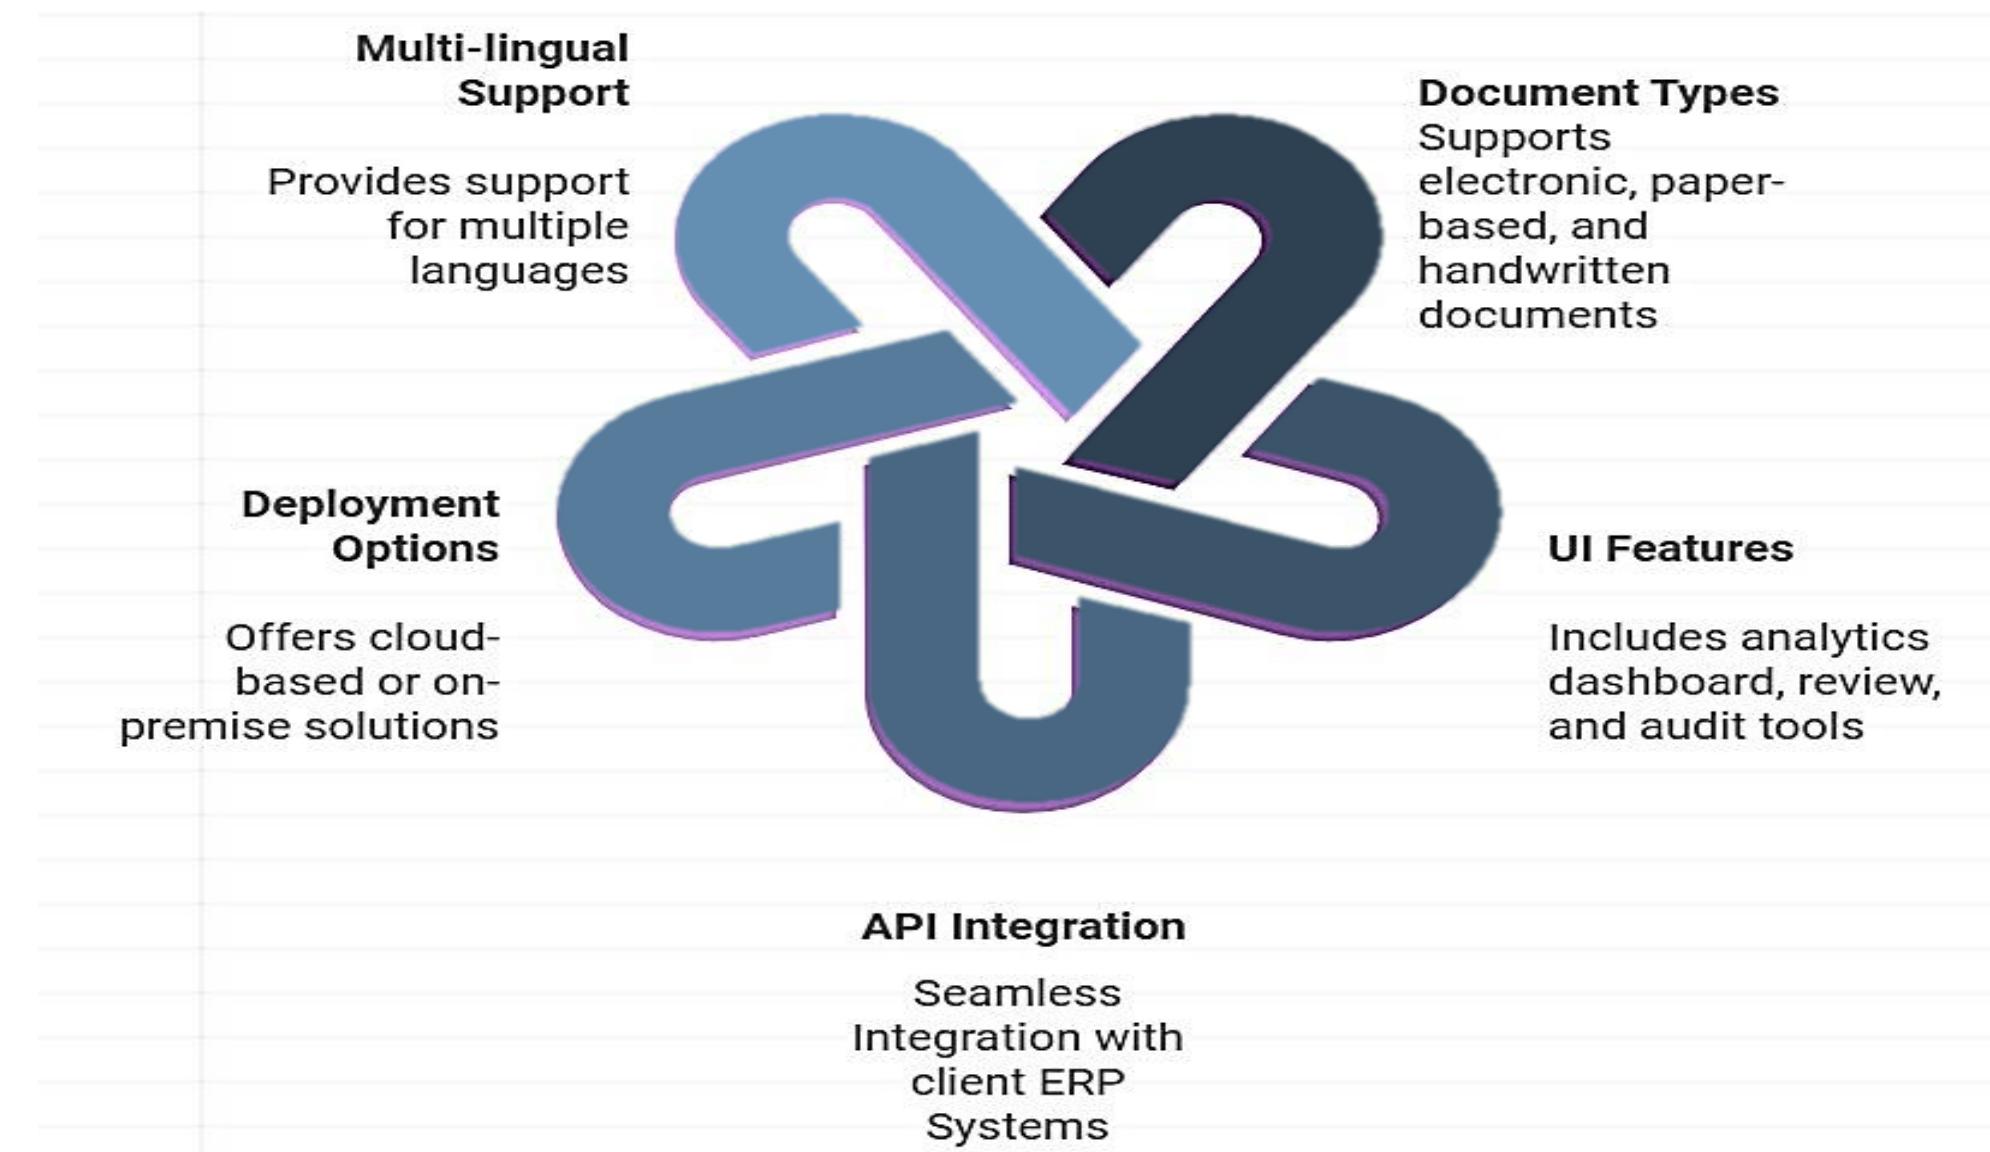

### Security

Cyber Security & Data Security  
In-Transit and At-Rest Encryption

# *vDigiDocr* Key Features

An AI-powered OCR software platform designed to scan, digitize and extract data, allow editing, protect, permit collaboration, and share all types of documents and their data, to maximize efficiency in digital workplaces.

# *vDigiDocr* Available Add-Ons

1

## Document Management System

### Customer Service UI

Provides user-friendly document interface

### API for Client Integration

Facilitates seamless client application connectivity

### Document Security Features

Ensures document protection through various security measures

### API for Storage & Retrieval

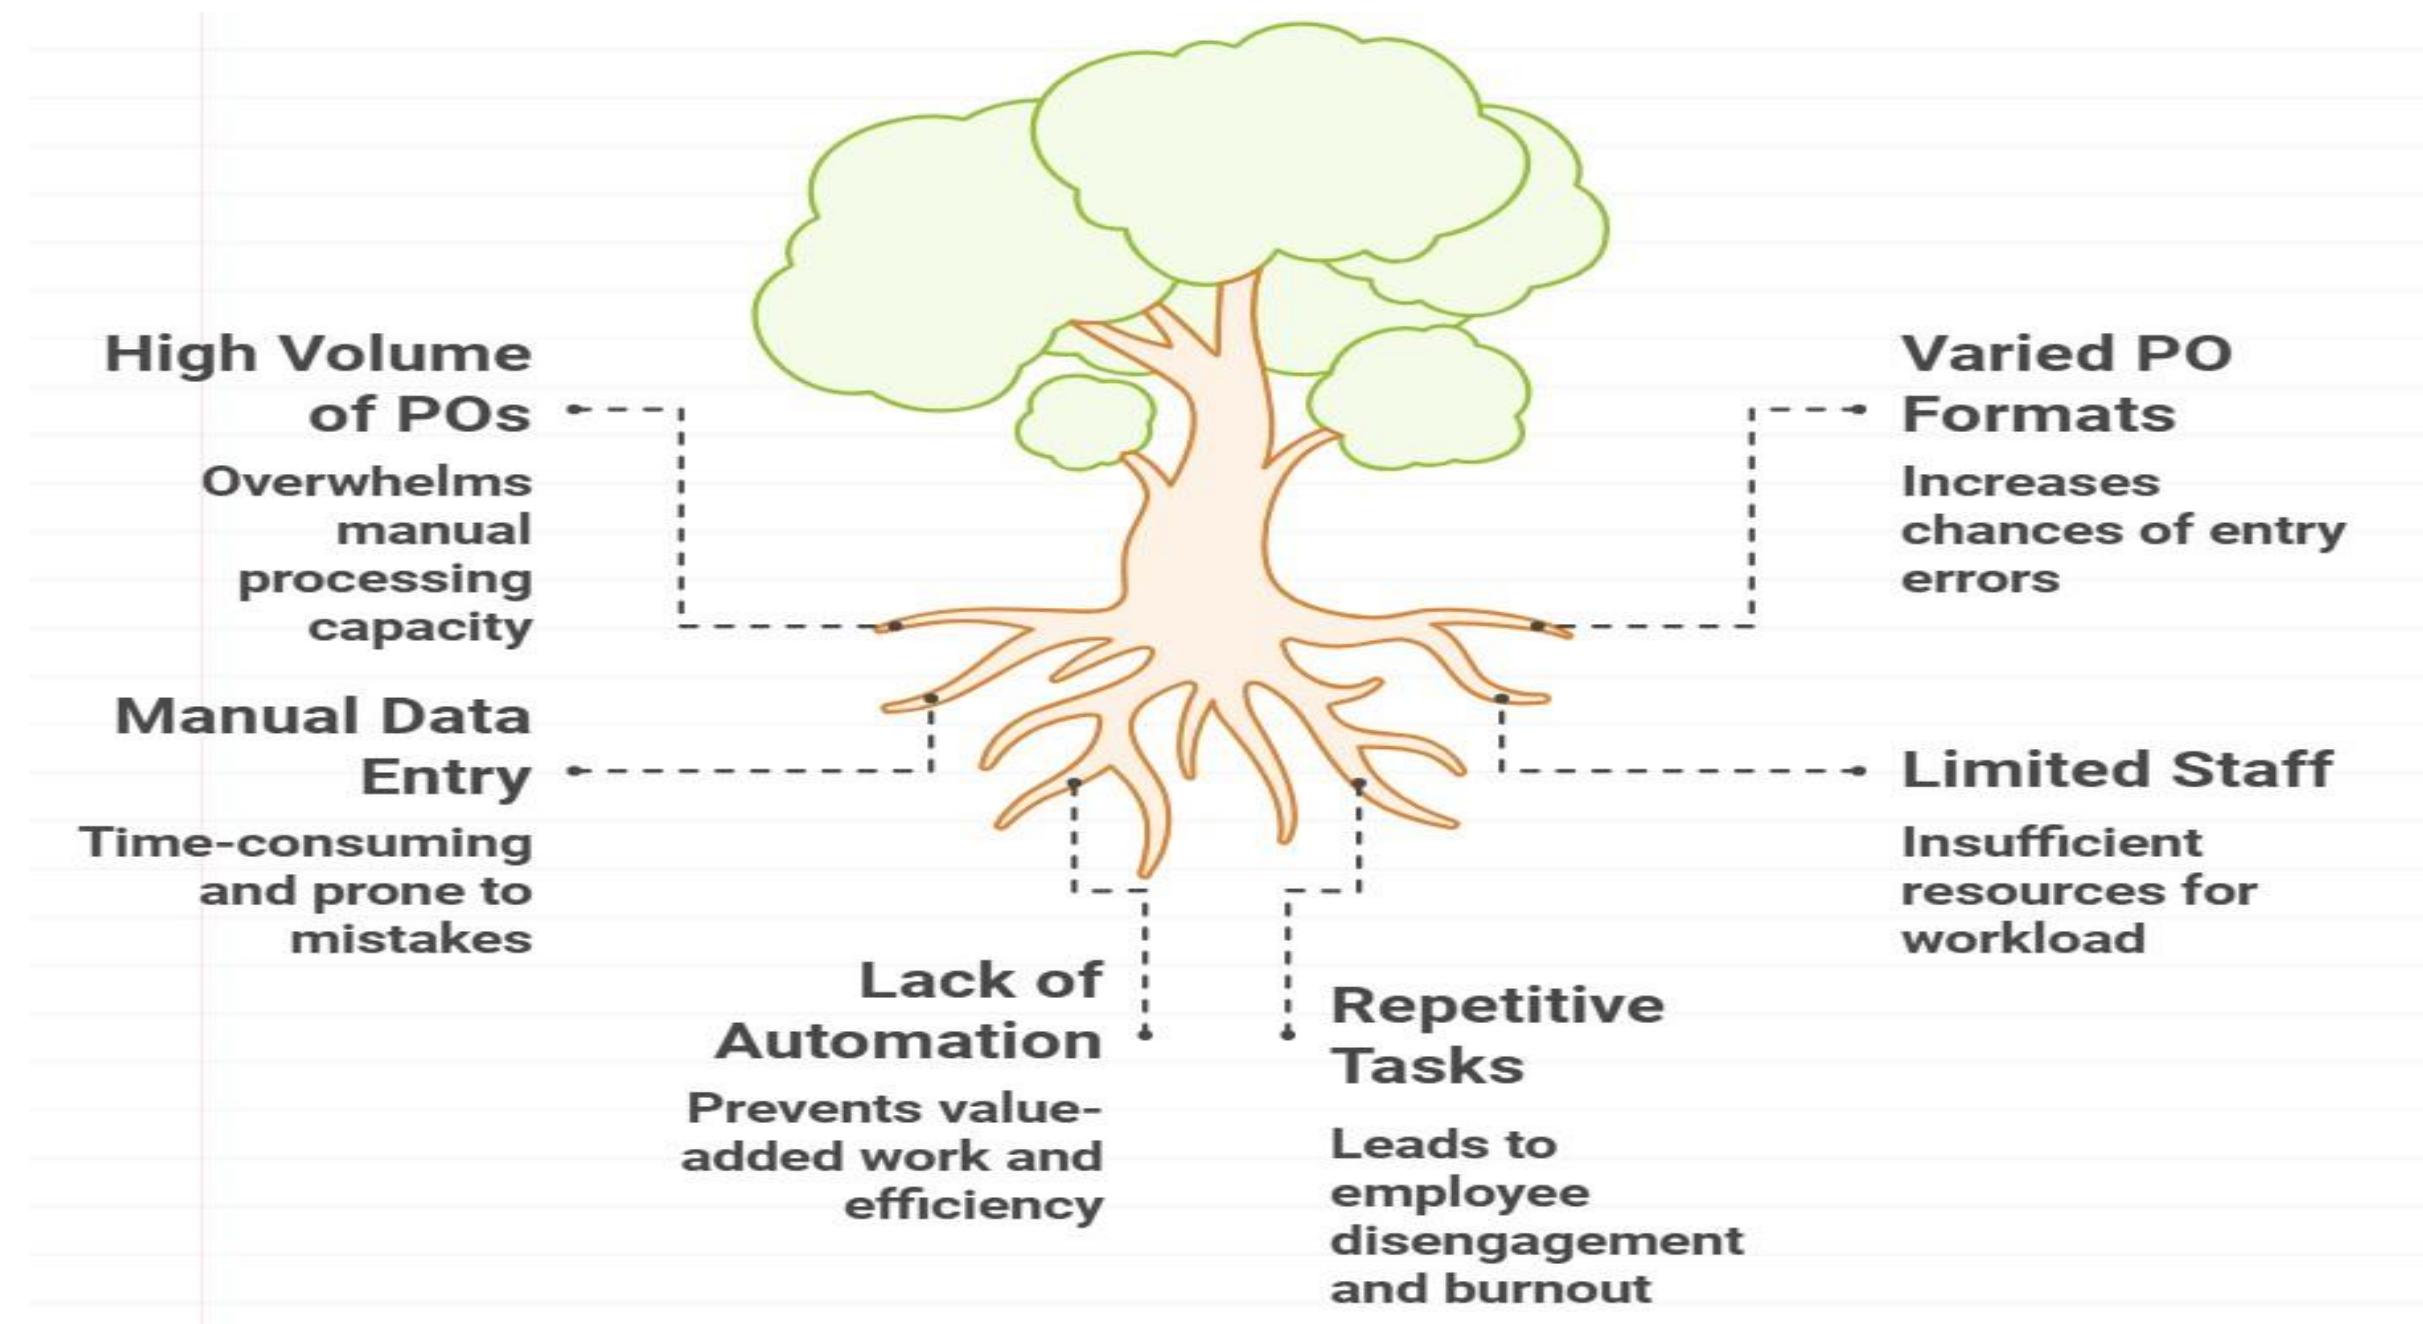

Enables efficient document storage and retrieval

2

**Model Training Module:** - vDigiDocr Platform supports new document types by providing a model training module which facilitates automated workflow from preparation to generating and updating the trained model on the platform.

# Case Study - Horeca Distribution

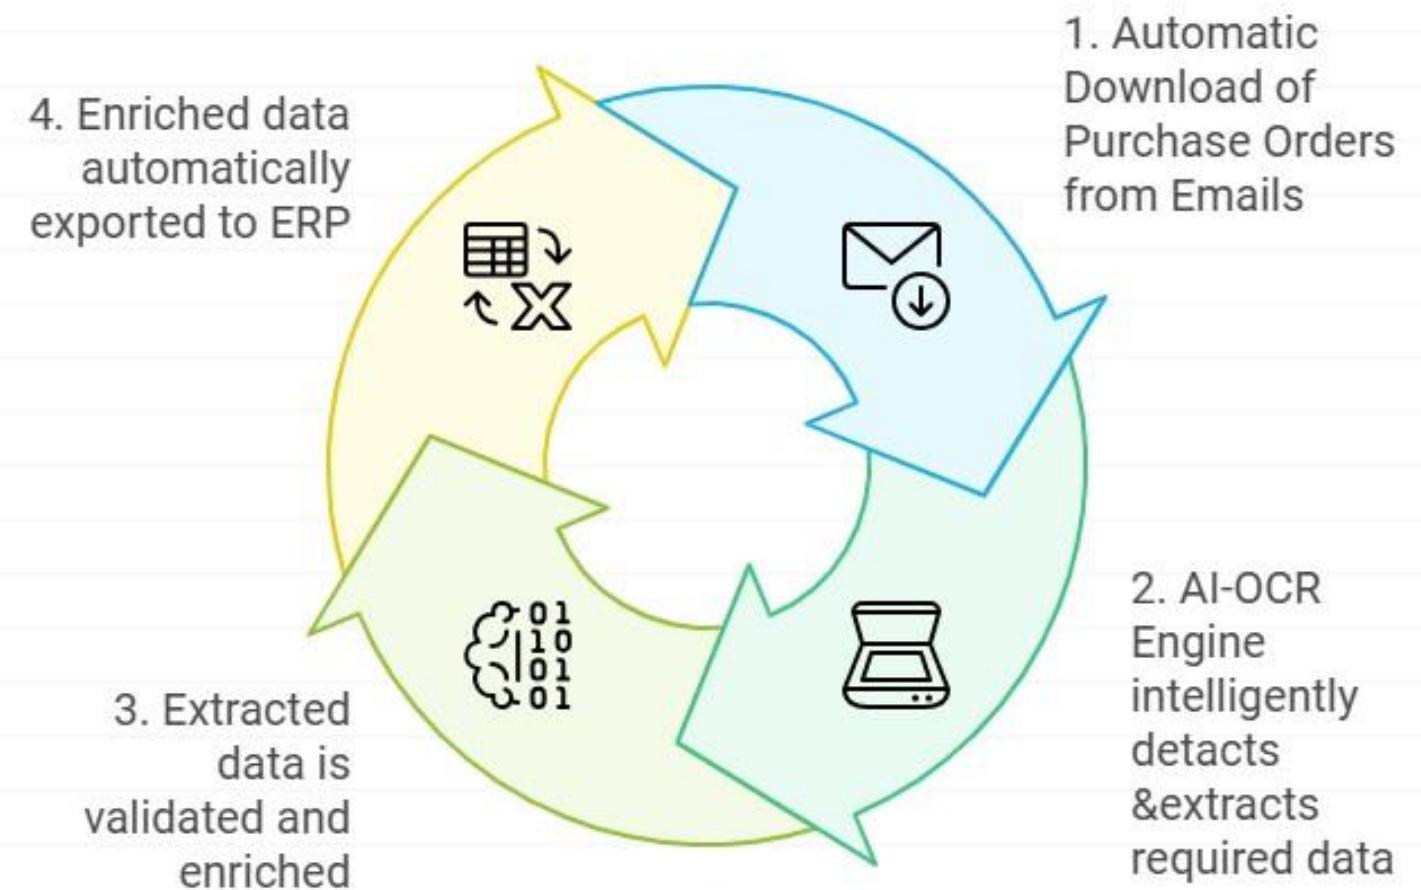

## The **Pain Points** of Their Manual Process

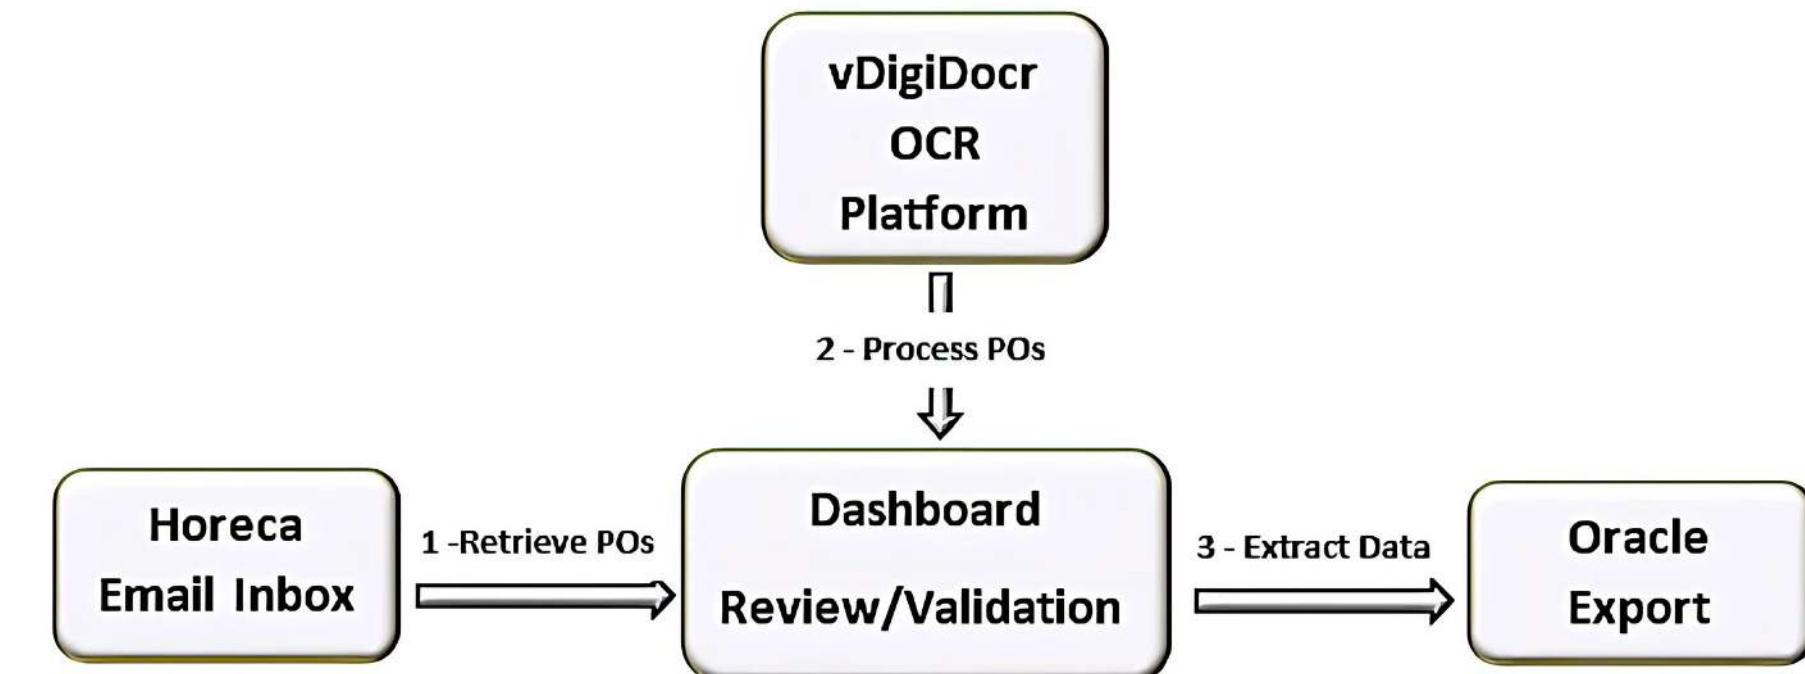

# The Horeca *vDigiDocr* Solution

The Solution we implemented was an AI-Powered OCR platform with integration to incoming emailed Purchase Orders and outgoing data into their existing ERP, with a User Interface for monitoring the status and making corrections where required.

## The Process:

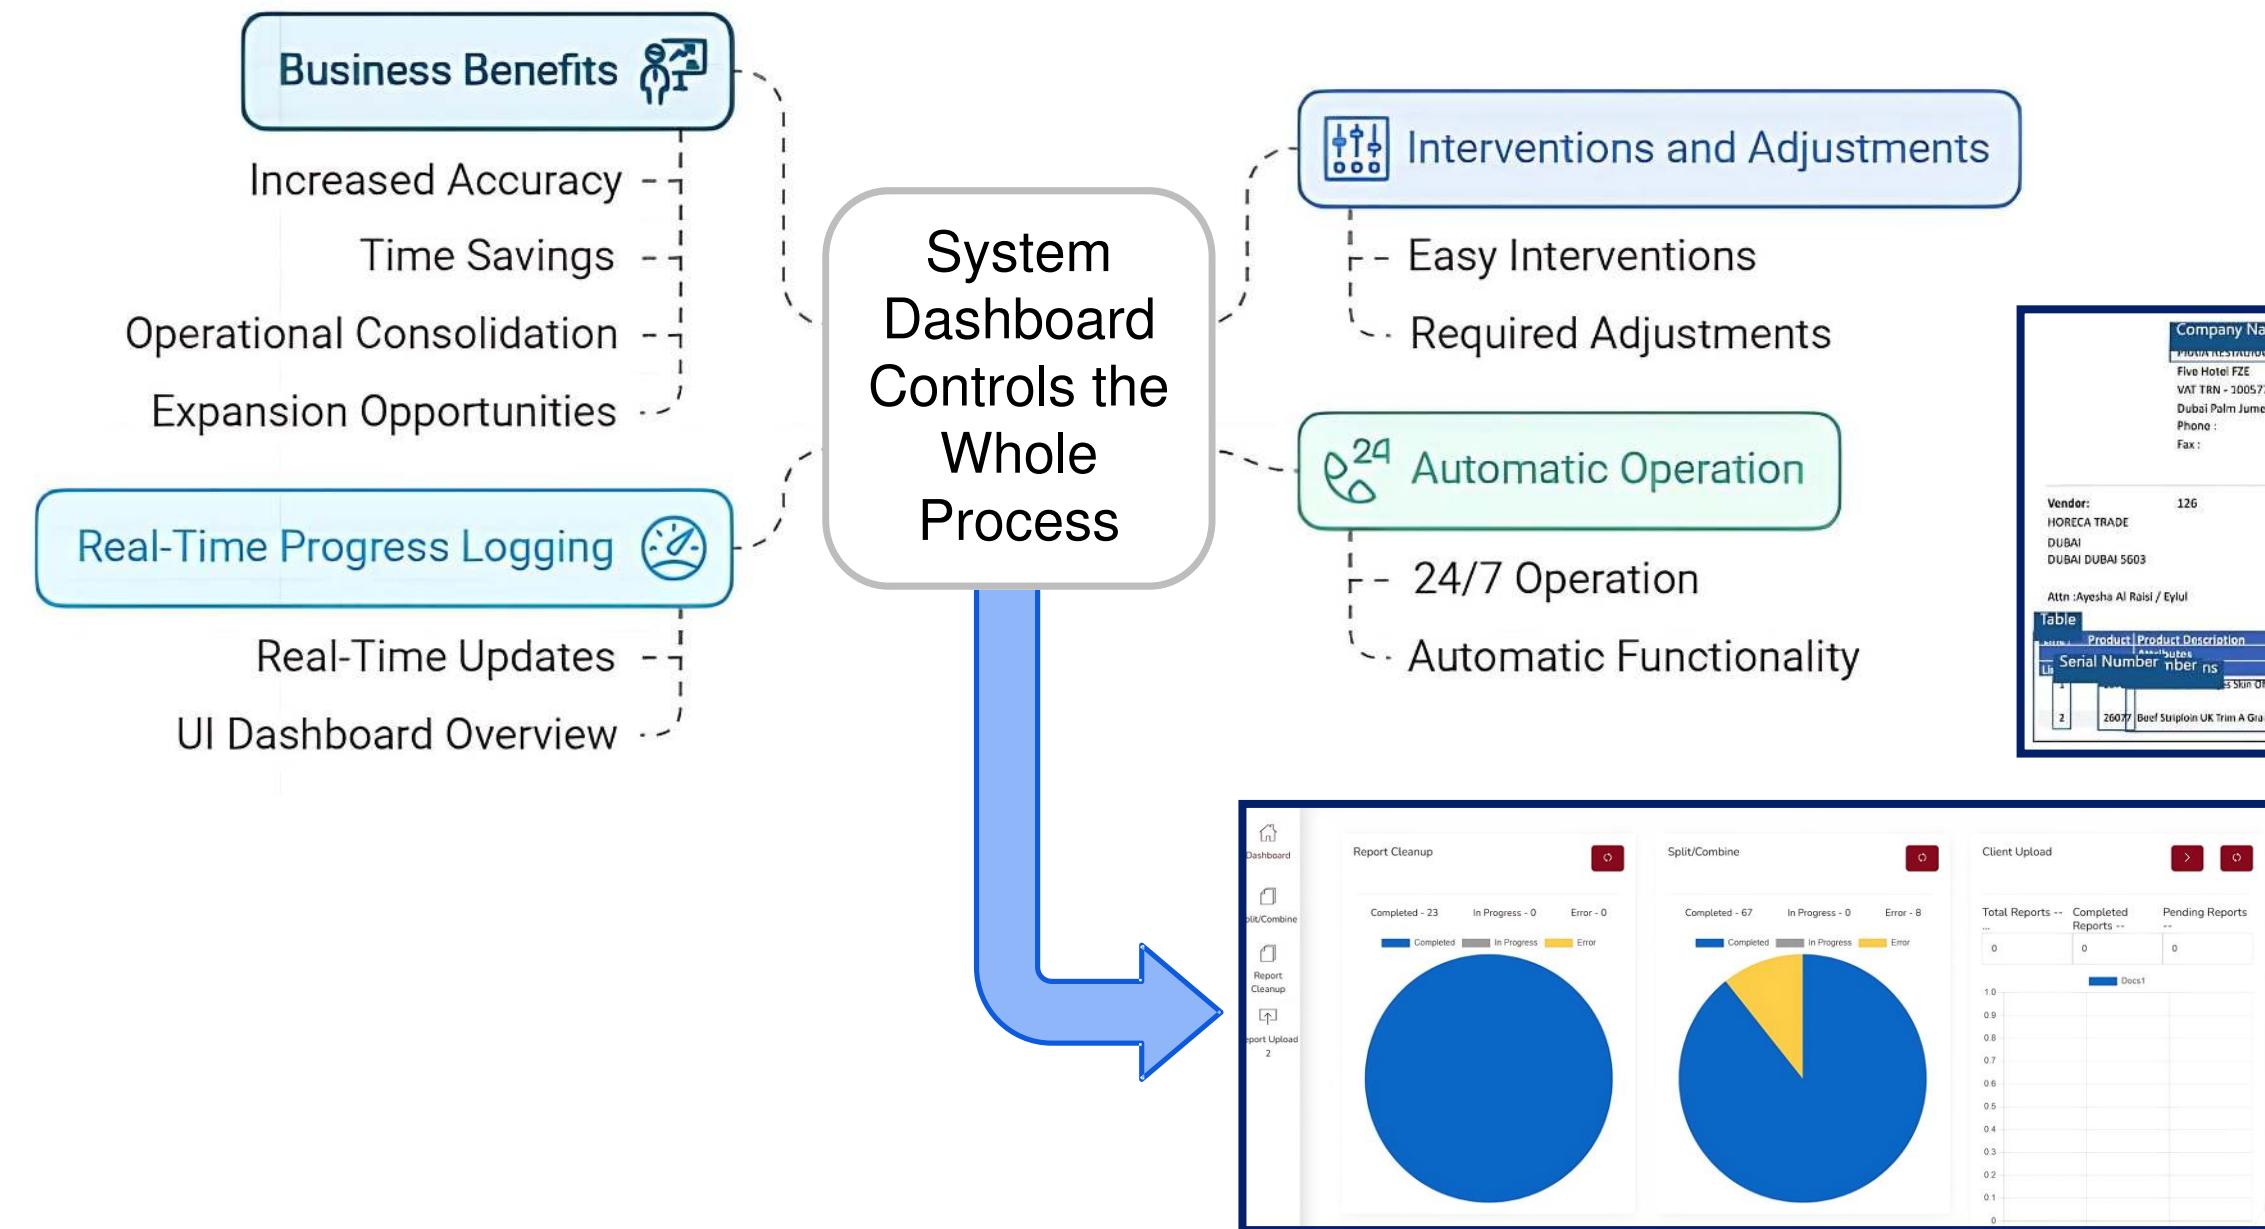

## The Technology which delivers it:

vInnovate Technologies

# The Benefits it Brought to Horeca
