

Law Firms Practice Management

Law Firms which rely on manual, paper-based management system face two fundamental issues: -

1. The intrinsic inefficiencies of a paper-based system
2. Moving forward with 'Digital Transformation' ideally needs a robust, fully integrated computer software solution as a 'foundation' on which to build the newly-emerging technologies of AI-powered Document Management, Virtual Assistants, Contract Management and more.

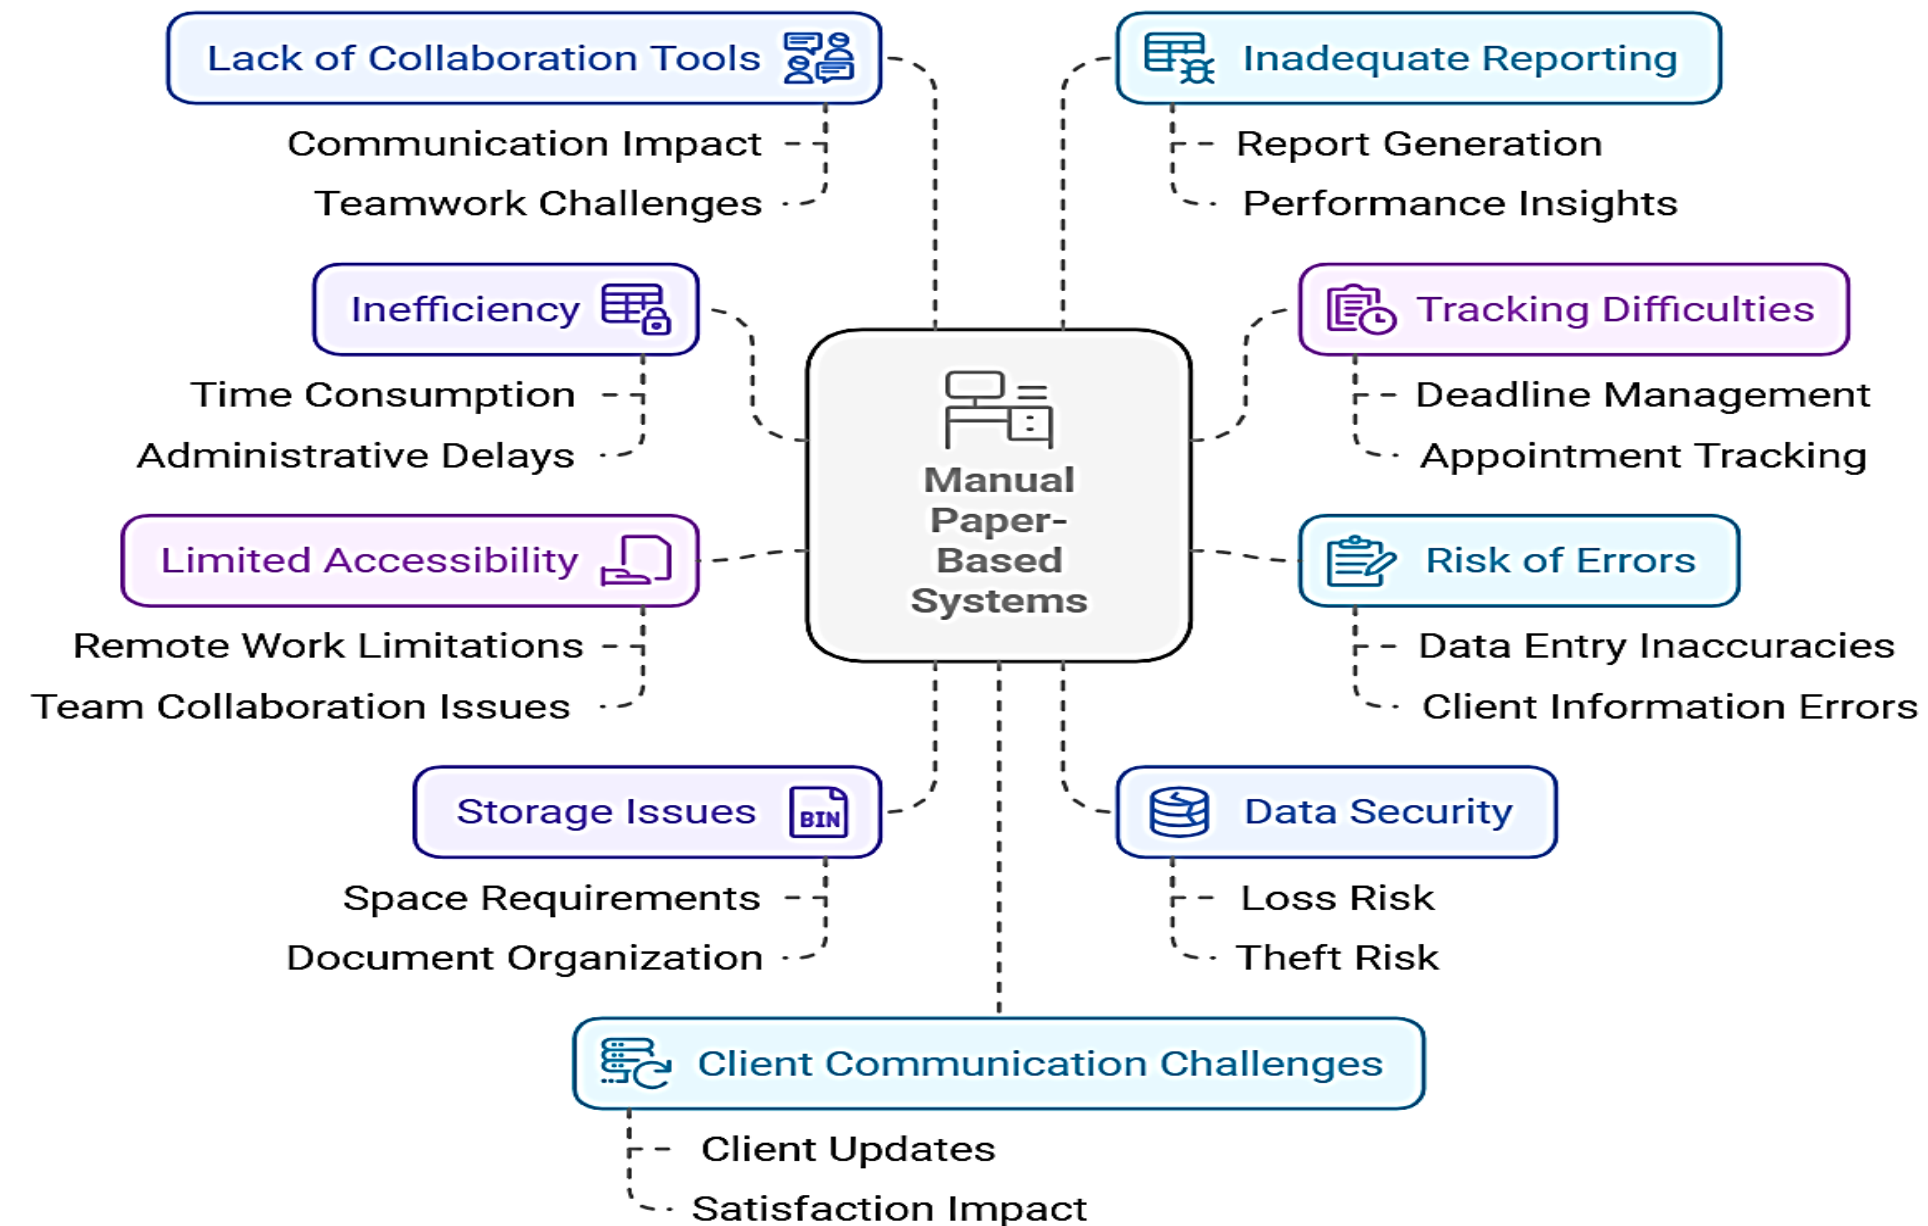

Our 'Practice Management' system does just that and is designed for firms which currently do not have such a system in place or are considering a modern replacement.

A Fully Integrated, configurable Law Firms Practice Management Solution

The Inefficiencies of Manual Systems

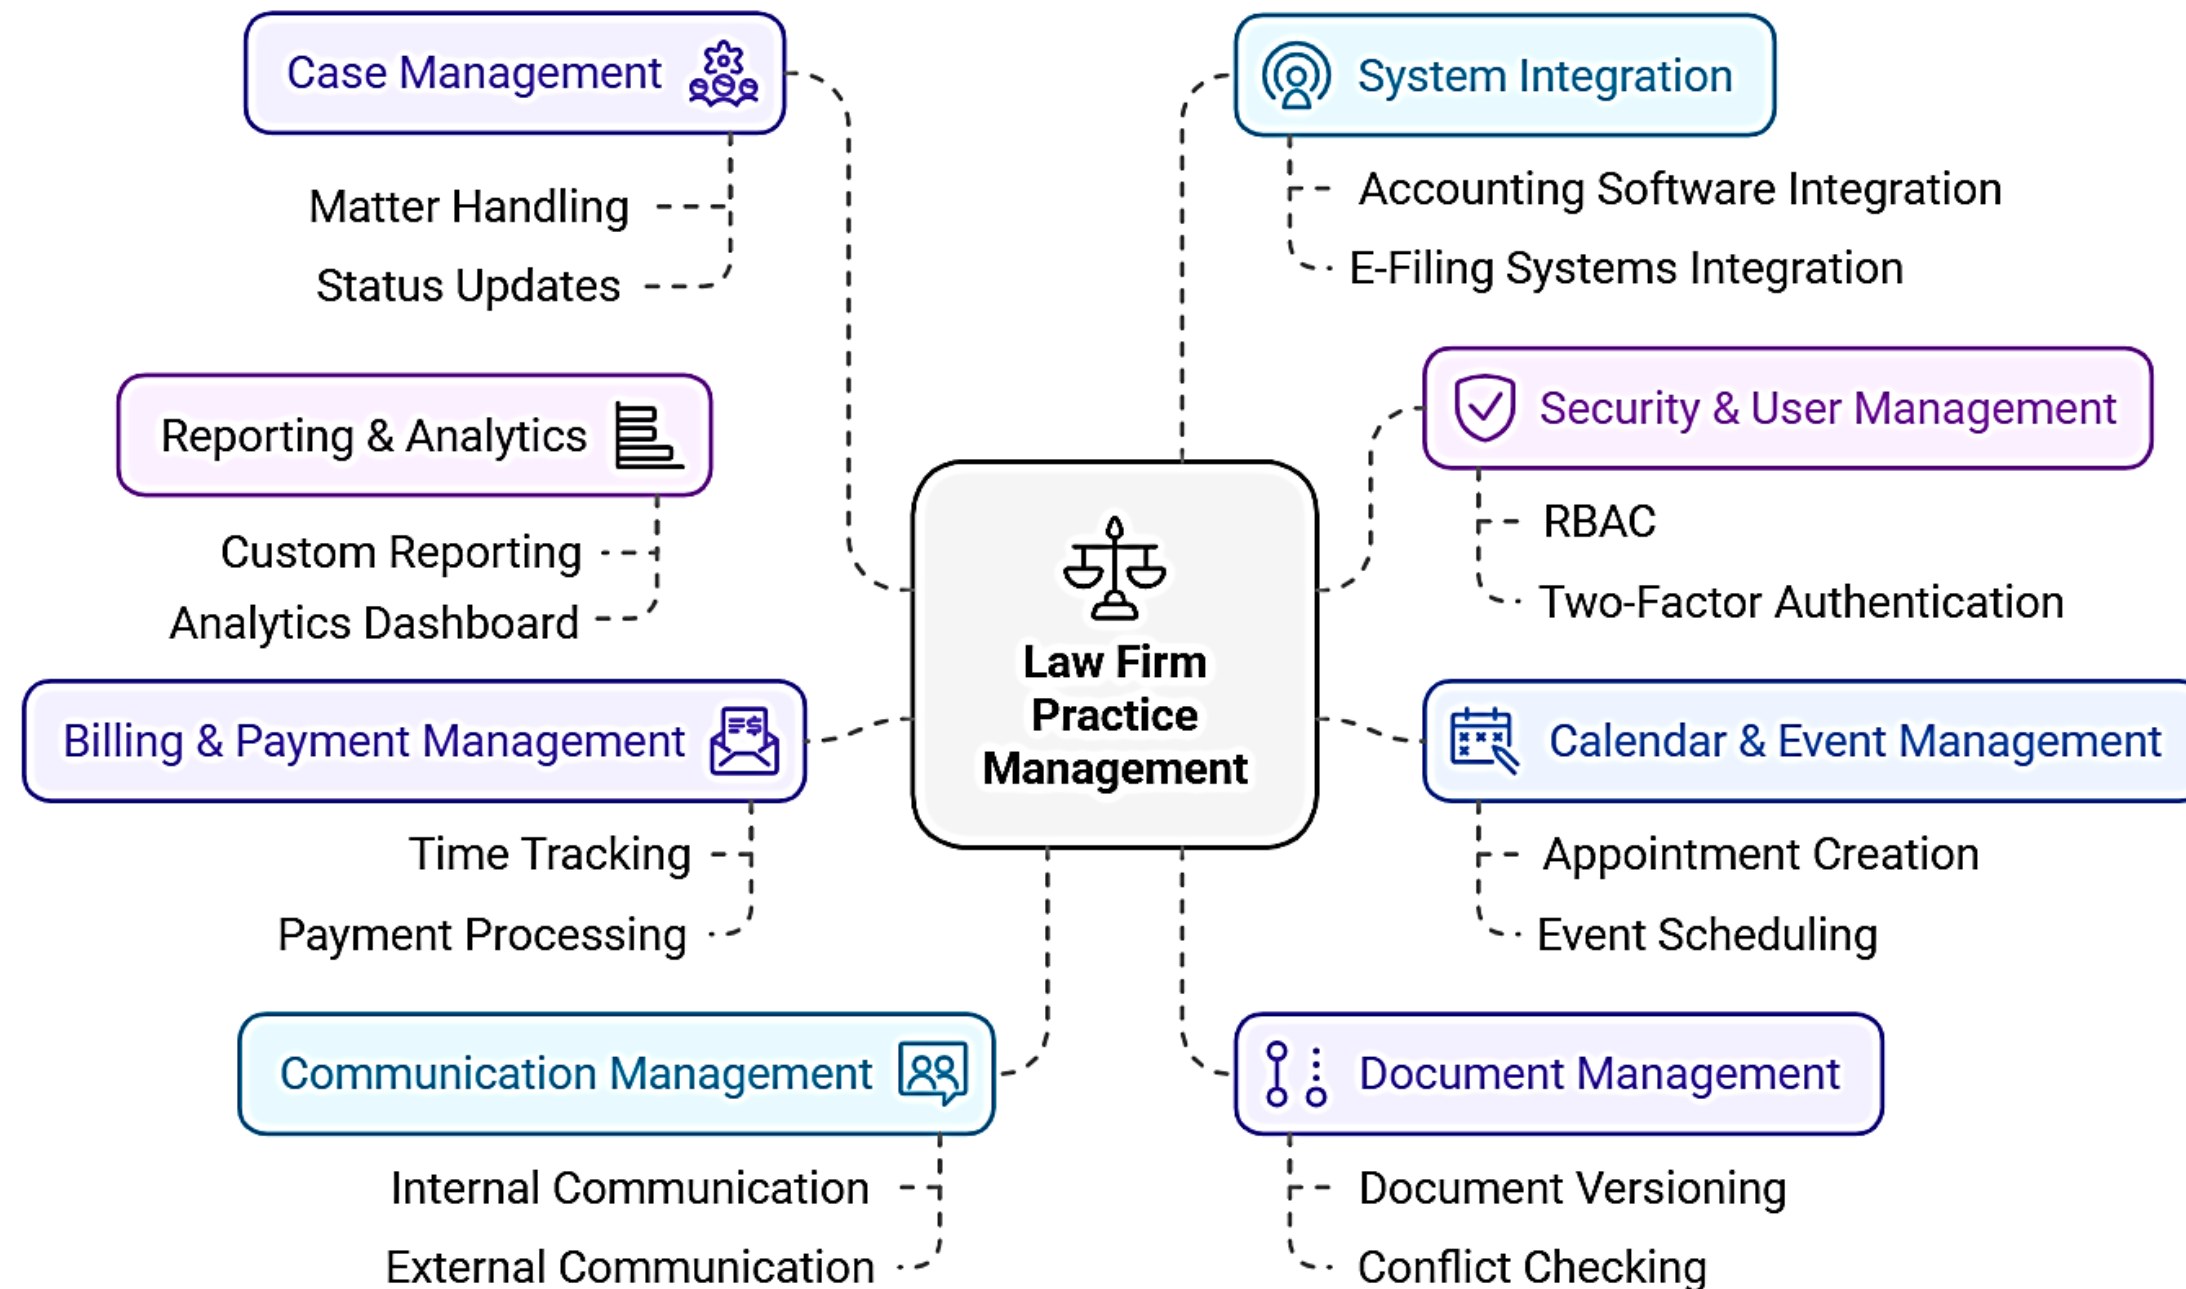

Many law firms are still undertaking time-consuming and mission-critical tasks as paper-based exercises, resulting in: -

A Fully Integrated, configurable Law Firms Practice Management Solution

Our 'Practice Management' Solution Includes:

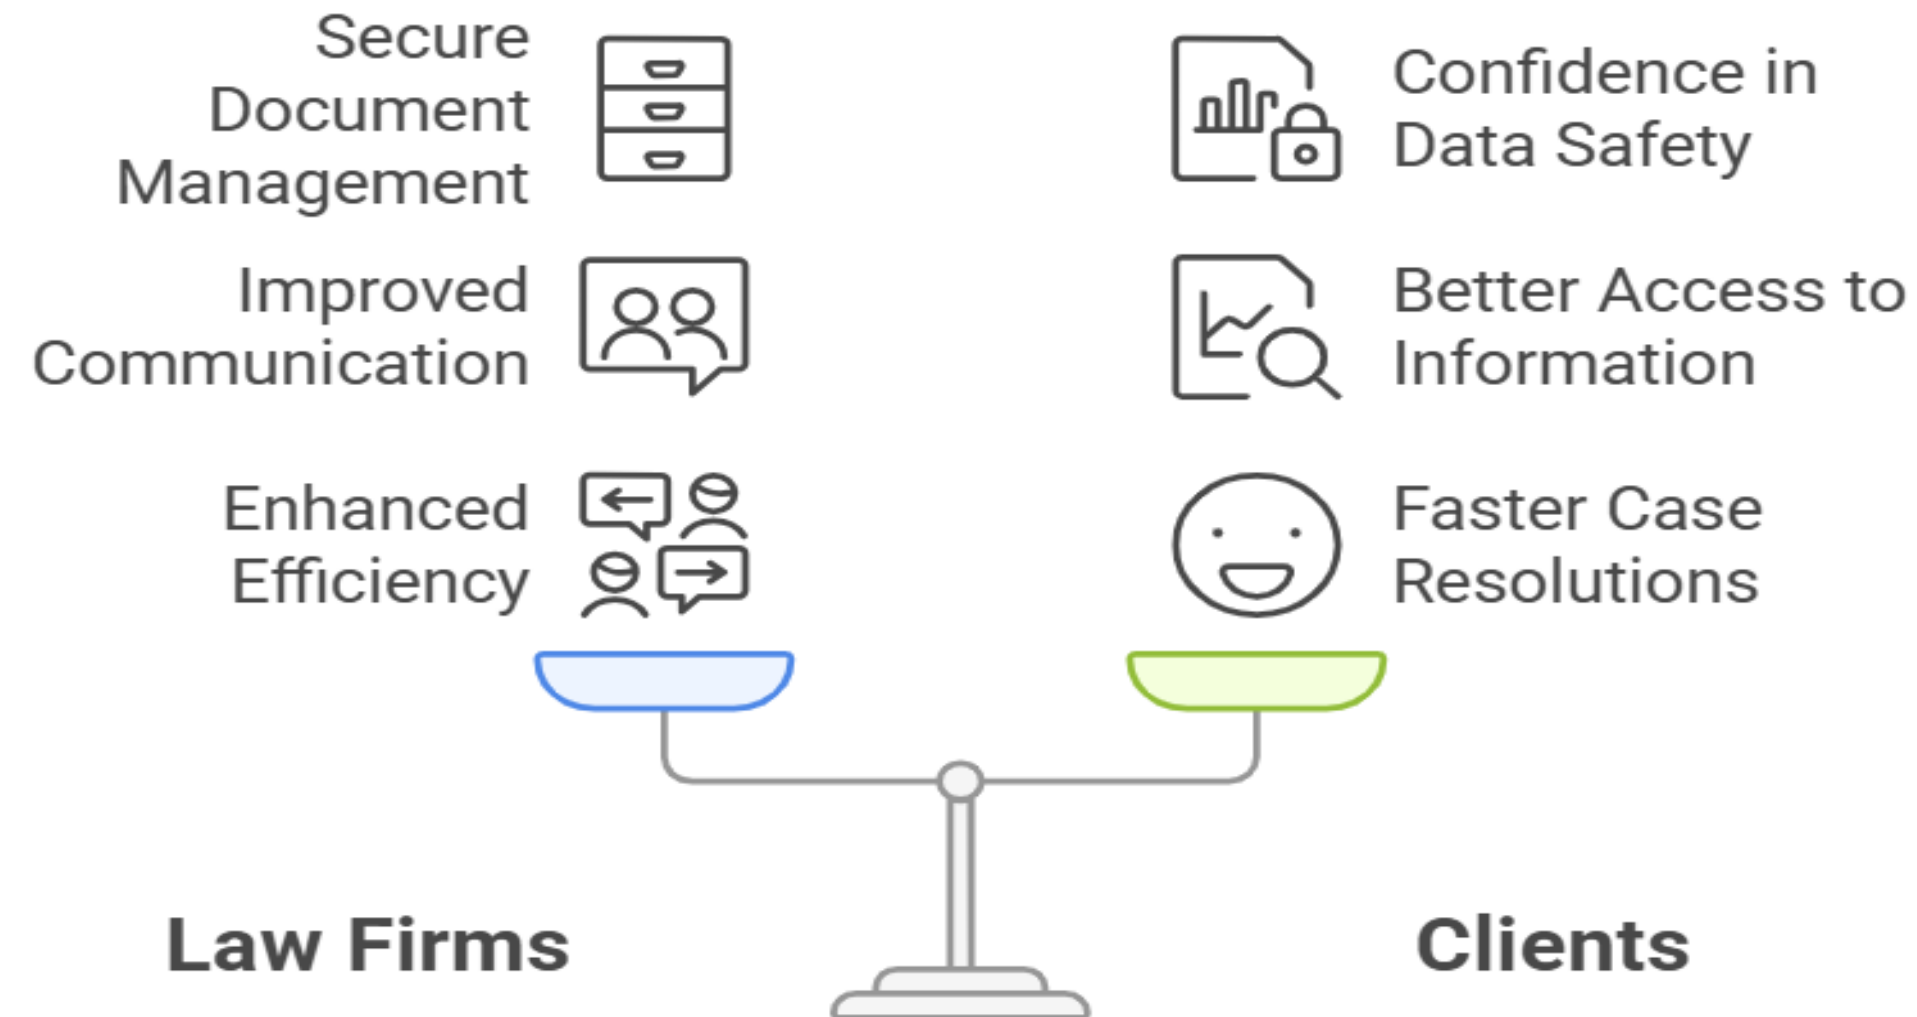

Working in partnership with a law firm, we created a requirements specification for a fully integrated, comprehensive, easy to use and, cost-effective system designed to be customized to each firm's individual requirements.

A Fully Integrated, configurable Law Firms Practice Management Solution

The Benefits This Brings

Our partner Law Firm reported many benefits of their new Practice Management' system, which can be summarized as: -

Balancing Benefits for Law Firms and Their Clients

A Fully Integrated, configurable Law Firms Practice Management Solution

In Conclusion

Law firms, along with other high-level professions, build their reputations, amongst other things, upon:

- **Successful outcomes**
- **Exceptional client service**
- **Effective management**
- **Innovation and technology**
- **Financial stability and growth**

In a modern practice, that means the installation and maintenance of a comprehensive yet easy-to-use EMS (Electronic Management System). vInnovate Technologies has developed just such a system in partnership with a leading US Law Firm, Shapiro & Associates.

The software was developed as an integrated system to manage Matters, Insurers, Company Representatives, Attorneys, Arbitrator, Claim Representative, and Referring Doctor, with additional Functionality for Payments and Escrow Ledgers with Custom Payment Reports for each Client.
