Generative AI in the Financial Sector

AI-powered insights for better decisions

Our Technology Partners

Technology is changing at an ever-increasing rate, and we make sure that we take the time to keep up-to-date with the opportunities which this presents.

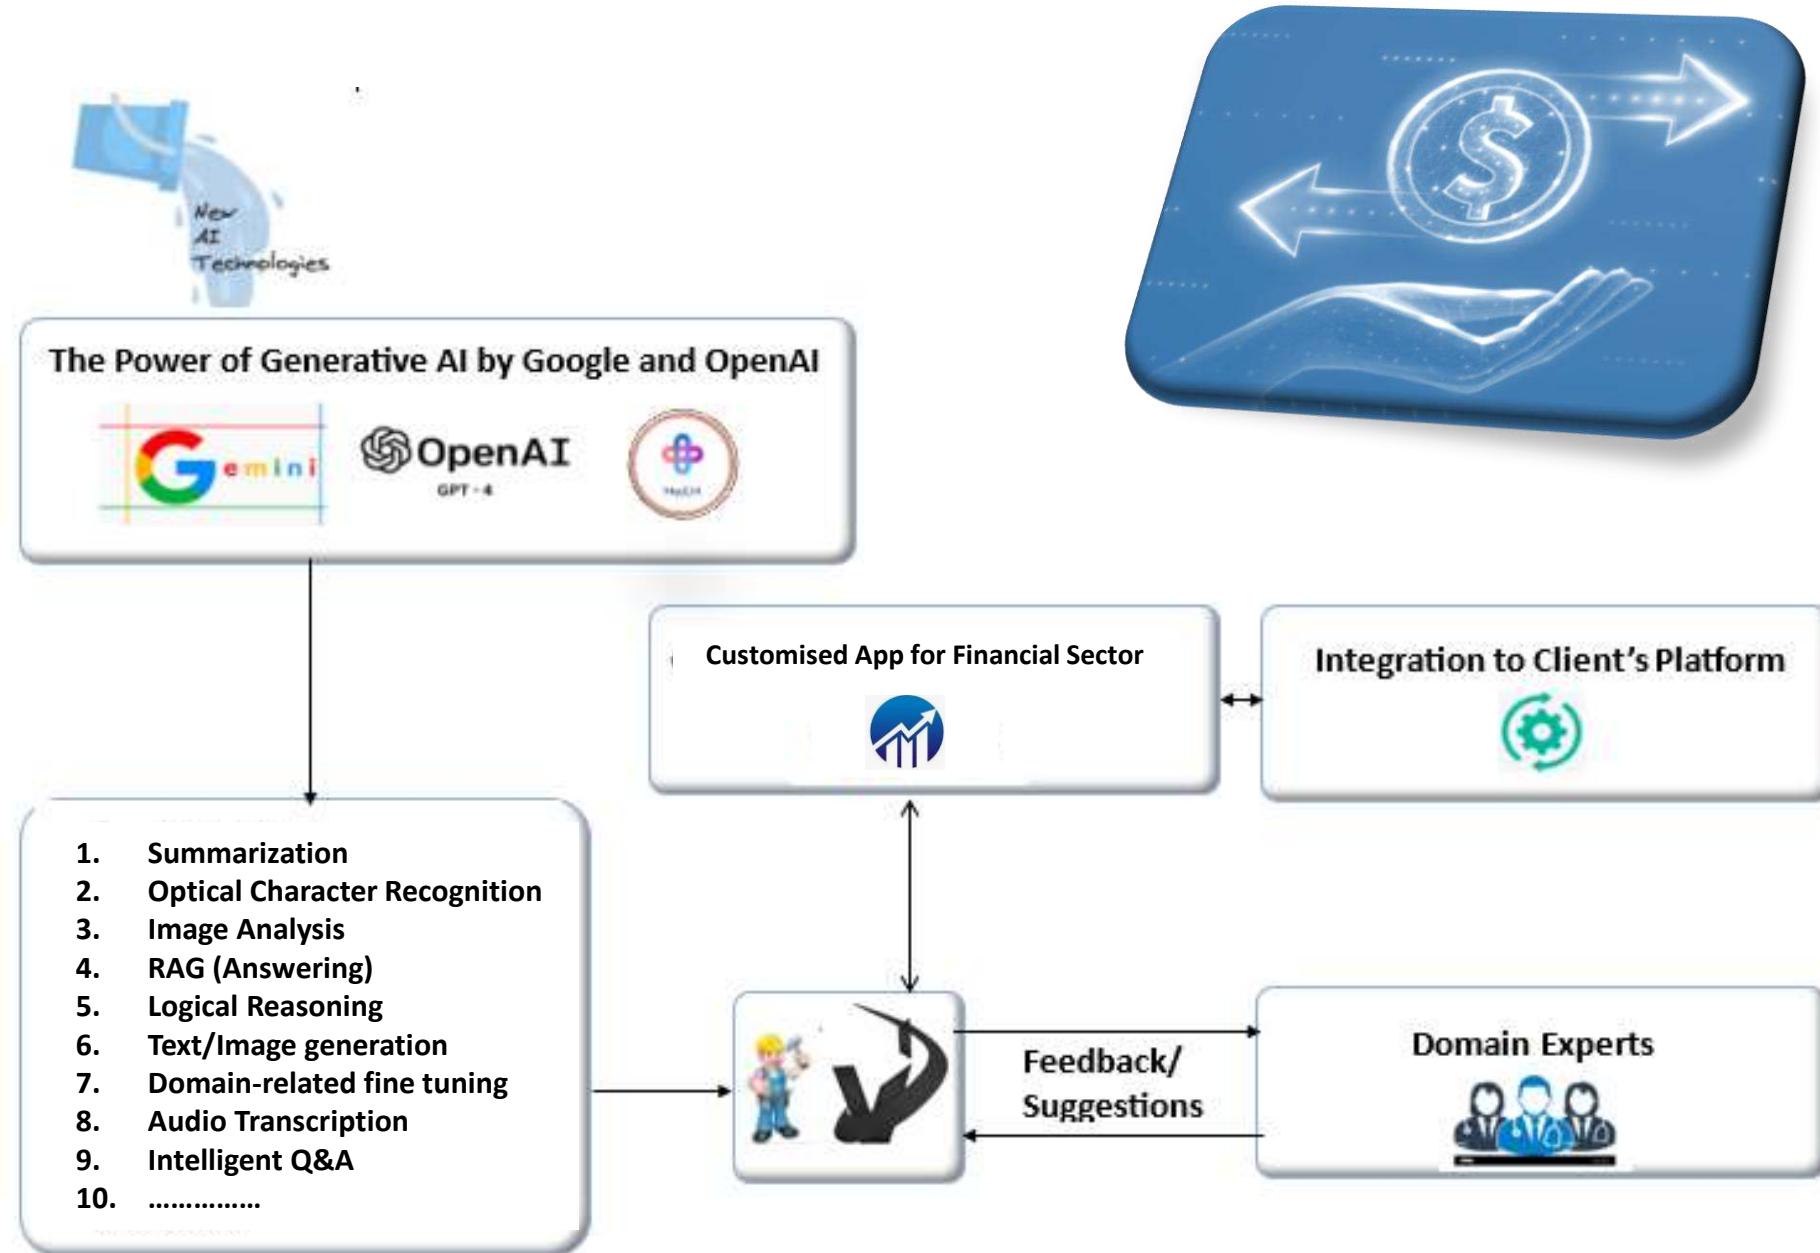

One of the ways we achieve this is to partner with the world leaders in technology, and these are some examples of that.

Microsoft Azure

The Power They Bring to Our Products

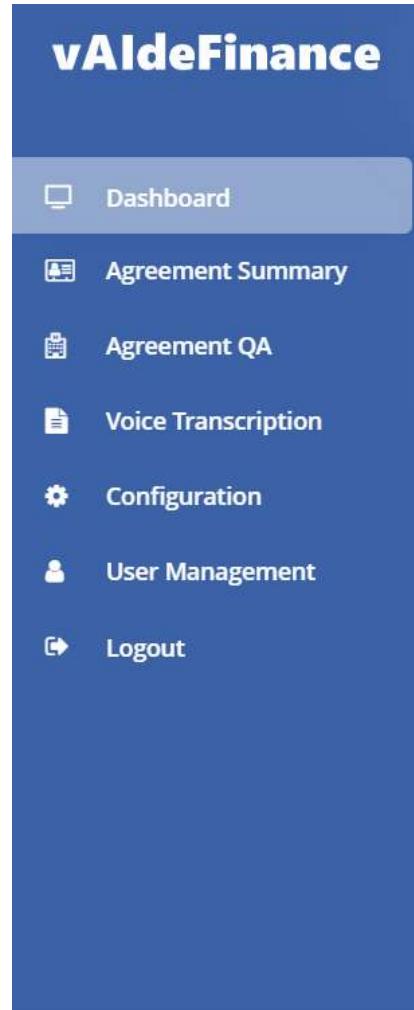

All Types of Data Sources

Agreements, Contracts, ID Documents, Bank Statements, Invoices, Purchase Orders, Handwritten Notes, in English and other Languages (including Arabic and other scripts).

Diagram illustrating various data sources:

- Medical Record:** Shows a patient's medical history, physical examination findings, and treatment notes. It includes a blood pressure reading of 120/80, a respiratory rate of 18, and a height of 72 inches. The patient is a 27-year-old male (M) with a blood type of A+.
- Bank Statement:** A 'STATEMENT OF ACCOUNT' from First Citizens Bank. It shows a balance of \$12,000.00 and a transaction history for the month of October.
- Loan Application Form:** A 'CAR LOAN APPLICATION FORM' from First Bank of Wiki. It asks for personal information like name, address, and employment details, as well as financial information like monthly income and expenses.
- Bank Statement:** A 'CHEQUING ACCOUNT STATEMENT' from First Bank of Wiki. It shows a statement period from October 9 to October 18, 2003, with a balance of \$123,456.70.
- Loan Agreement:** A 'LOAN AGREEMENT' document from the Republic of Belarus. It details the loan amount, term, and conditions.
- Table:** A table showing a sequence of events or transactions from October 8 to November 11, 2003, including various financial and payment activities.

vAldeFinance

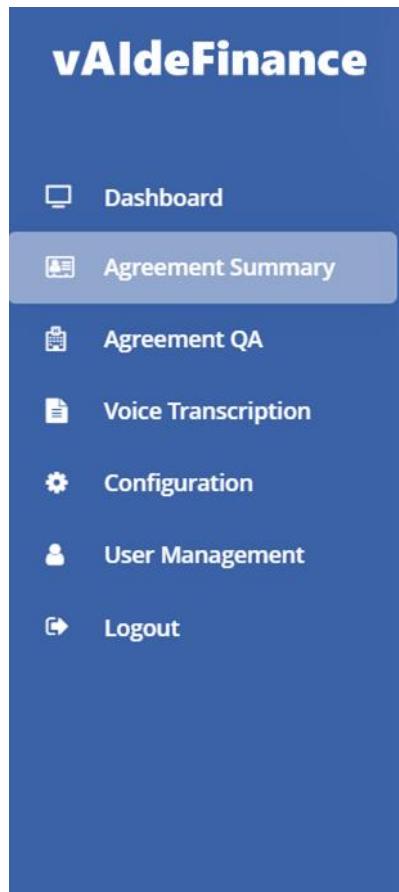

Overview

A Suite of functions accessing the power of Generative AI to extract data from financial documents. Then to analyze, summarize, clarify and answer questions about the data to support financial decision-making and document finalization.

Imagine an experienced financial assistant, well versed in agreements, contract document creation and analysis, loan application processing, KYC processing, etc., who will work 24/7, without complaint or tiring. Their output and quality of work never varies, with their last piece of work for the week being just as good as the first one. Possibly even better because, just like their human counterpart, they 'learn' from previous experience, and keep up to date with changing financial regulations.

Meet '*vAldeFinance*'.

Document Analysis and Summary

Taking documents relating to the matter in hand; loan applications, bank statements, Passports and other Id documents for KYC processing and approval, and more.

Then digitizing them, analyzing them, and providing a summary which can be interrogated further using 'Question &Answer' the option, and supplemented by the recording and transcription of audio evidence.

Welcome to Amity Auto Loans.
My name is Sarah and I'm a loan representative.
Can I interest you in exploring our car loan options today?
Hi Sarah.
Thanks, actually I'm looking to finance a new car and I was hoping to
get some information about your loan rates.
Absolutely, we offer a variety of competitive rates based on factors like
credit score, loan term and down payment.
Do you have a specific price range in mind for the car you're
considering?
I'm flexible but ideally I'd like to keep it around \$25,000.

Welcome to Amity Auto Loans.
My name is Sarah and I'm a loan representative.
Can I interest you in exploring our car loan options today?
Hi Sarah.
Thanks, actually I'm looking to finance a new car and I was hoping to
get some information about your loan rates.
Absolutely, we offer a variety of competitive rates based on factors like
credit score, loan term and down payment.
Do you have a specific price range in mind for the car you're
considering?
I'm flexible but ideally I'd like to keep it around \$25,000.

Summary

Sarah, a loan representative at Amity Auto Loans, offers competitive car
loan rates based on factors like credit score, loan term, and down
payment. The customer is looking to finance a new car around \$25,000
and has a credit score of around 780,000. They are considering putting
down a loan of \$6,000. Sarah is ready to provide information on loan
options and rates to help the customer make an informed decision.

vAldeFinance Benefits (1)

Client Benefits:

- **Improved accuracy and faster processing of documentation:** Generative AI can analyze vast amounts of data to identify patterns and inconsistencies that might be missed by humans. This can lead to more accurate financial documentation, and increased client confidence in your services.
- **Enhanced communication and information access:** Generative AI can be used to create easy-to-understand reports and summaries of financial documents, allowing for better communication between clients and advisors.
- **Streamlined data collection:** AI can automate tasks such as data entry from mobile devices or wearables, reducing the burden on clients and ensuring more complete data capture.

vAldeFinance Benefits (2)

Finance Organisation Benefits:

- **Automation of your KYC processing** - Using Q&A, you can ask the system to tell you what is missing and what is inaccurate in the documentation provided, to save hours of manual checking.
- **Increased efficiency and responsiveness:** Generative AI can automate repetitive tasks such as data collection, cleaning, validation and analysis, freeing up staff time to focus on more critical activities like client care and increasing the client base.
- **Better decision-making:** Generative AI can quickly analyze data to identify potential risks and non-compliance issues, allowing finance professionals to make more informed decisions about client advice and care.
- **Scalable, to cope with increasing workloads:** Whilst still offering your clients better care and better services due to its advanced technologies, vAldeFinance can help you grow your client-base and your company..

vAldeFinance Benefits (3)

Overall System Benefits:

- **SaaS (Cloud-hosted) as well as on-Premise offerings:** Ensures data confidentiality and security.
- **Customizable & easy to integrate with existing client platforms:** Offering overall efficiency in the management of client data.
- **Integrated with the latest advanced generative AI technologies:** Including Google FinLM, Open AI, Google Gemini, Google Cloud, and Microsoft Azure AI platform.
- **Cost Effective & Ready for Market:** We are an established technology company providing cutting edge products & solutions in financial services around the world, under guidance of experts in the field.

vAldeFinance

In Summary:

Generative AI-powered document handling can revolutionize how financial institutions and company finance departments manage paperwork. Instead of tedious manual data entry and analysis, Generative AI automates these tasks, freeing up staff for more strategic work. Generative AI can process vast amounts of financial documents, extracting key information and summarizing it into clear reports. This allows for faster and more insightful decision-making, while also reducing the risk of human error.

Furthermore, Generative AI can go beyond simple data extraction. By analyzing financial data and trends, it can create reports with forecasts and risk assessments. This empowers financial professionals to make proactive decisions and optimize strategies. Additionally, Generative AI can be used to create custom reports tailored to specific needs, providing a more comprehensive view of financial health. Overall, a Generative AI-powered document handling system offers significant benefits for efficiency, accuracy, and financial decision-making.

vInnovate Technologies:

Other Finance Products and Solutions:

Whilst vAldeFinance is a powerful, complete solution to a very real set of problems, it is just one part of our product and solution range aimed at the Finance Sector. You might also like to take a look at:-

- **vDigiDocr:** our AI-enabled intelligent document processing tool used to automatically identify and extract text from images and documents and convert them into digital format for business process automation. It extends the functionality of vAldeFinance to encompass ALL types of documents, including pictures, scans and diagrams with a Question and Answer function.
- **versaChat:** our AI-powered ‘Digital Assistant – a Chatbot with a difference - in fact several unique differences. Firstly, it is not just a product. It is a configurable solution to each client’s individual needs. Secondly it has the ability to do more than just chat - which it does effortlessly either using text or speech in a voice of your choice.

vInnovate Technologies
