Summary

Summarize

[11/19/10]: The Loan Agreement dated November 19, 2010, between the Republic of Belarus and the International Bank for Reconstruction and Development outlines a loan of \$150 million to finance the Road Upgrading and Modernization Project. The Project aims to reduce transport costs for road users on the M5 Road and introduce electronic tolling in Belarus. The agreement covers loan terms, interest rates, repayment schedules, project descriptions, implementation arrangements, procurement guidelines, and withdrawal conditions. The Borrower commits to carrying out the Project in accordance with the General Conditions and Project objectives. The agreement includes provisions for anti-corruption measures, safeguards, project monitoring, financial management, procurement methods, and loan disbursement. The Borrower's Representative is the Deputy Prime Minister of Belarus, and addresses for both parties are provided. The agreement is effective for 120 days after the signing date and includes detailed schedules for amortization, project execution, and withdrawal of loan proceeds. The Appendix defines key terms and modifications to the Anti-Corruption Guidelines. The agreement was signed in Minsk, Belarus, by authorized representatives from both parties.

What are the key points of Article III- Project?

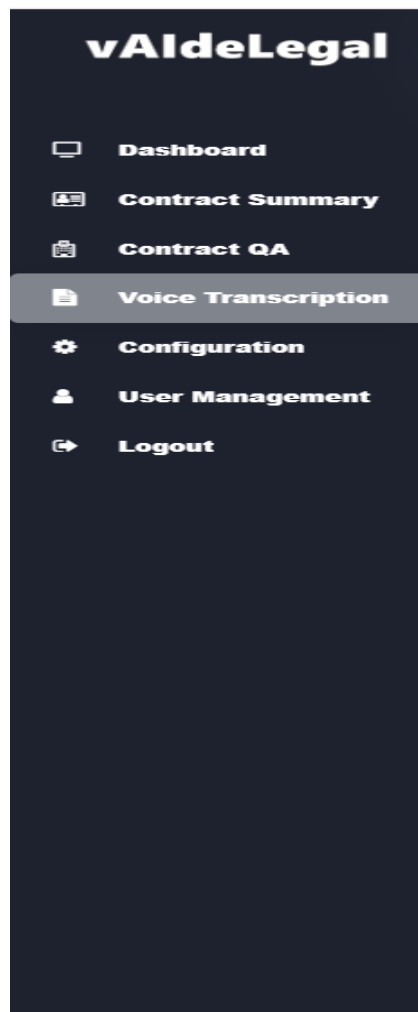

Your Assistant

The key points of Article III - Project are: 1. The Borrower declares its commitment to the objectives of the Project and will carry out the Project in accordance with the provisions of Article V of the General Conditions. 2. The Borrower shall follow specific procurement procedures under National Competitive Bidding, including eligibility restrictions, pre-qualification criteria, and restrictions on entities with state ownership. 3. The Project includes activities such as road construction, repair, maintenance, audits, technical assistance, training, and capacity building in the road sector. 4. The Borrower must enforce and implement the Environmental Management Plan (EMP) and ensure the transfer of land required for the Project. 5. The Project Implementation Team (PIT) at MinksAvtodor is responsible for carrying out the Project implementation and day-to-day operation. 6. The Borrower must comply with the Project Operational Manual (POM) and take necessary measures to enforce the EMP. 7. The Borrower's Representative is the Deputy Prime Minister of the Borrower.

This is a verbal Affidavit given by Peter Williams on Thursday 13<sup>th</sup> June 2024 in the presence of myself, Gerald Forbes, LLB and Samantha Richards , Legal Assistant.

“I, Peter Williams to state as follows:-  
I have known my business partner for three years, during which time we entered into a legal partnership to offer IT services and consultancy to schools, colleges and educational trusts and authorities around the world.

#### 📄 Summary

Peter Williams gave a recorded verbal Affidavit to Gerald Forbes, LLB and Samantha Richards, Legal Assistant, in which we stated that he had known his business partner for three years, during which time he had entered into a Legal Partnership. The partnership was established to enable them to offer IT services and consulting

# ***vAldeLegal*** Benefits

## **Professional Benefits:**

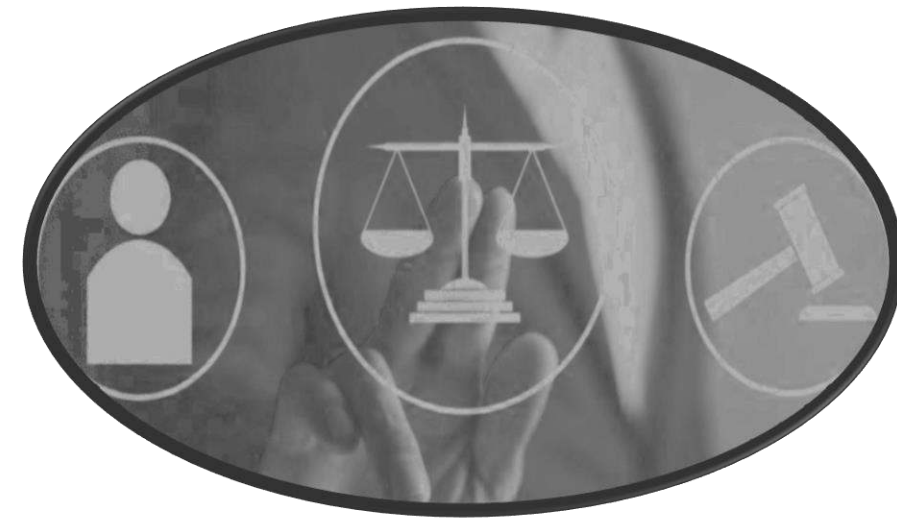

**Document Review:** Can quickly analyze large volumes of documents, identifying relevant information and patterns that would be time-consuming for humans.

**Case Law Research:** Can thoroughly search legal databases, finding relevant precedents and case law based on specific legal issues.

**Predictive Analytics:** Can analyze historical data to predict the outcome of cases, help lawyers identify potential risks, and optimize litigation strategies.

**Contract Analysis:** AI can review contracts, identify potential issues, and suggest revisions.

**Compliance and Risk Management:** AI can help firms comply with regulatory requirements by monitoring changes in laws and identifying potential risks.

# ***vAldeLegal*** Benefits

## **System Benefits:**

- **SaaS (Cloud-hosted) as well as on-Premise offerings:** Ensures data and security.
- **Customizable & easy to integrate with existing client platforms:** Offering overall efficiency in the management of patient data.
- **Integrated with the latest advanced generative AI technologies:** Including Google MedLM, Open AI, Google Gemini, Google Cloud, and Microsoft Azure AI platform.
- **Cost Effective & Ready for Market:** We are an established technology company providing cutting edge products & solutions in healthcare around the world, under guidance of experts in the field.

## ***vAldeLegal***

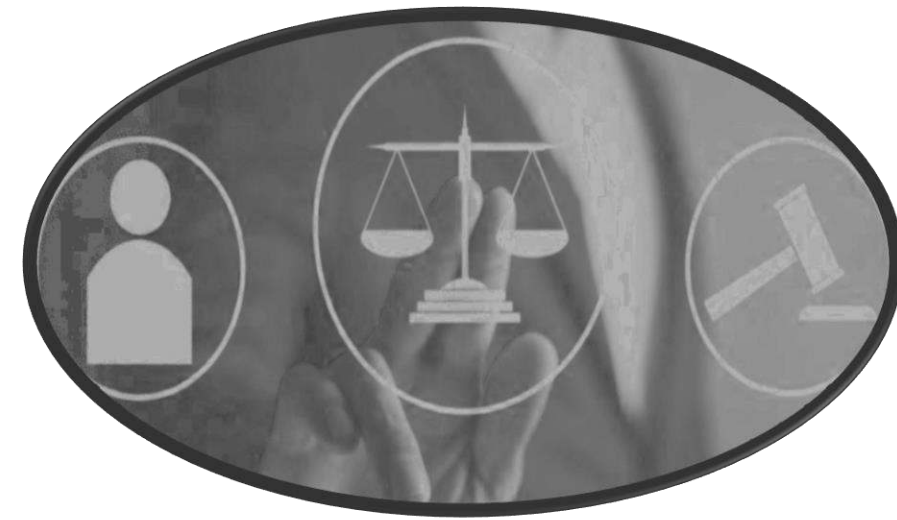

### **In summary:**

Developed in close collaboration with our Law Firm clients, vAldeLegal is a powerful, complete solution to a very real set of problems.

It comes into its own whenever an individual, or set of documents or voice recordings needs to be thoroughly searched and recorded digitally to ensure that nothing is overlooked, in the way that an experienced legal assistant would be trained to do. It then goes further to offer a 'summary' to enable the the lawyer the opportunity to first read a professional summary and then, if clarification is required, to ask questions to pinpoint areas for further attention.

Examples of where this functionality come into its own include:

- Contract document review and preparation
- Litigation document review and preparation
- Compliance and Risk Management assessment
- Predictive Analytics based on historical data

## ***But importantly....***

vAldeLegal is just one part of our product and solution range we have developed for the Legal Sector. You might also like to take a look at:-

- **Law Firms Operations Management:** Procedures, Workflow, Staff are an undeniable issue faced by Law Firms. This 'Core System software solution addresses these issues, and is seen by the leading Law offices & Attorneys in New York who worked with us to develop the system as leveraging technology to their advantage.
- **vDigiDocr:** our AI-enabled intelligent document processing tool used to automatically identify and extract text from images and documents and convert them into digital format for business process automation. It extends the functionality of vAldeLegal to encompass ALL types of documents, including pictures, scans and diagrams with a Question and Answer function and audio transcription.
- **versaChat: our AI-powered 'Digital Assistant** – a Chabot with a difference - in fact several unique differences. Firstly, it is not just a product. It is a configurable solution to each client's individual needs. Secondly it has the ability to do more than just chat - which it does effortlessly either using text or speech in a voice of your choice.
